NEW

We received an exceptional number of abstracts this year making the selection process very competitive. Abstracts selected for this new opportunity were chosen based on their clinical relevance to both community and academic family physicians in attendance at the conference. The following posters will be displayed in the Prefunction Area during the conference offerings.

Friday, February 27, 2015 – AM (8:00 am – 12:00 noon)

- The Health Pregnancy Weight Gain Project: Promoting Healthy Pregnancy Weight Gain Among Women in Alberta
- Standardizing Safe Infant Sleep Practices in AHS through Provincial Policy and Resources
- The Influence of Sleep Quality and Burnout on the Career Intentions of Family Physicians
- An Interactive Web Portal for Members of the Southern Alberta Primary Care Research Network (SAPCRen)

Friday, February 27, 2015 – PM (1:00 – 5:00 pm)

- Enoxaparin Use in a Geriatric Patient with Chronic Kidney Disease: A Report of Retroperitoneal Hemorrhage and Practice Implications
- Is Influenza-Like Illness a Useful Concept and An Appropriate Test of Influenza Vaccine Effectiveness?
- Are Influenza-Associated Morbidity and Mortality Estimates for Those Age ≥ 65 in Statistical Databases Accurate, and An Appropriate Test of Influenza Vaccine Effectiveness
- Developing a Preventative Alcohol Screening Tool For Use in Multidisciplinary Primary Care Team Practices

Saturday, February 28, 2015 – AM (8:00 am – 12:00 noon)

- Challenges in Interdisciplinary Weight Management in Primary Care
- Missing an Opportunity? Harnessing The Embedded Nature of Obesity in Primary Care
- 5AST Shared-Decision Making Tools: An Approach to Addressing Weight Management Implementation Gaps in Primary Care
- Supporting Family Caregivers of Seniors: Improving Care and Caregiver Outcomes
