Please review our submission categories and adhere to the corresponding abstract guidelines when submitting.

Submission Types:

- Research
- Program Description/Evaluation

Presentation Categories:

- **Display Poster** - Required to have at least one author in attendance to answer questions during the event. Posters must fit neatly into a 4'X4' space.
- **Oral Presentation** - Oral presentations selected will be presented in concurrent sessions. Oral presentations will be 10 minutes in length with 5 minutes for questions (a total of 15 minutes). Authors of abstracts selected for oral presentation will be advised of their presentation time and room assignment, by email as soon as the program schedule is available.

Project Status requirements:

Display Poster	Oral Presentation
<p>Completed Research</p> <ul style="list-style-type: none"> • Research to be presented must be complete at the time of the Call for Abstracts submission deadline of November 29, 2018. 	<p>Completed Research and/or Research in Progress</p> <ul style="list-style-type: none"> • Research to be presented must be complete at the time of the Call for Abstracts submission deadline (November 29, 2018).
<p>Research in Progress</p> <ul style="list-style-type: none"> • Research to be presented must be in progress at the time of the Call for Research Abstracts submission deadline (November 29, 2018). <p><i>Note: If your research is in progress at the time of the submission deadline but you anticipate that it will be complete by the time of this event, you should still submit the abstract as a poster on research in progress.</i></p>	<p>Program/Policy Description</p> <ul style="list-style-type: none"> • Describe programs or policies relevant to family medicine and/or primary care. These can include descriptions of programs or policies that are currently in effect or those in planning phases. <p><i>Note: Ensure information provided includes outcomes and how the program or policy will be evaluated for effectiveness.</i></p>
<p>Program Evaluation/Description</p> <ul style="list-style-type: none"> • Programs or policies that are currently in effect or in the planning phases and are relevant to family physicians and/or the delivery of primary healthcare. <p><i>Note: Ensure information provided includes outcomes and how the program or policy will be evaluated for effectiveness.</i></p>

Abstract Format Guidelines:

Abstracts should be a maximum of 350 words in length. Please do not use any bullets or special characters in the abstract description. See below for abstract format requirements, and submit appropriate content for the abstract type. **TIP:** Work first in Word, and copy your abstract to the form.

Research – (Posters and Oral Presentations):

Context: The abstract should begin with a sentence or two summarizing the rationale for the study, providing the reasoning behind the research question.

Objective: State the primary objective of the study (e.g. “To determine...”).

Design: State the basic design of the study (e.g., double-blind, cohort, study, survey research, before/after, program/practice evaluation, grounded theory, qualitative description, secondary data analysis).

Participants: Explain the important eligibility criteria and key demographic characteristics of the participants. Provide sample size.

Intervention/Instrument (as applies): Describe the essential features of any intervention, key instrument, or database used to complete the study.

Outcome Measures: State the primary outcome measures of the study.

Results: Provide the main results of the study. If the research is in progress, state the anticipated results.

Conclusions: Report the study’s conclusions that are supported directly by the study results as well as their potential implications (avoid speculation and overgeneralization). If research is in progress, state the problem that is being posed.

Program Description & Evaluation (Posters and Oral Presentations):

Context: The abstract should begin with a sentence or two summarizing the rationale for the study, providing the justification/need for the program or policy being presented.

Objective: State the primary objective/goal of the program or policy being described.

Target audience: Please describe the individuals the program or policy is meant to address.

Description: Describe the essential features of the program or policy.

Evaluation: Please ensure information provided includes outcomes and how the program or policy will be evaluated for effectiveness.

Conclusion: Summarize the progress of the program or policy to date.
