PRACTICAL EVIDENCE

FOR INFORMED PRACTICE CONFERENCE

October 25-26, 2019

DOUBLETREE BY HILTON WEST EDMONTON

Join Us for the 8th Annual Practical Evidence for Informed Practice (PEIP) Conference

The PEIP conference highlights focused reviews on clinically relevant primary care topics that combine evidence, experience, and patient values and is free of industry bias.

With two ways to participate (in person or via live Webcast), the conference is a fully accessible, multidisciplinary event that showcases relevant, evidence-based, and thought-provoking topics in health care.

WEBCASTING INFORMATION

If you can't get to PEIP, we'll pipe PEIP to you—live and synchronously via Webcast!

Since its launch a few years ago, our Webcast has grown exponentially with attendees spanning across the country and the US. We are happy to continue the Webcast for a remote, but interactive educational experience. All presentations and question and answer periods will be broadcast through the Internet to your desktop, laptop, or mobile device. Live Webcast attendees will also have the opportunity to participate in the interactive question and answer period by sending their questions to the presenters by email.

Small Group Learning by Clinic Webcast

Take advantage of our clinic Webcast option to provide a unique small group learning experience.

Why Attend?

With a versatile and driven team of primary care providers as your planning committee, you can trust that the PEIP program will be immediately applicable and practice-changing.

Who Should Attend?

The conference is applicable to a variety of disciplines including:

- family physicians,
- pharmacists,
- nurses, nurse practitioners,
- and other allied health care providers.

PRE-CONFERENCE WORKSHOPS: FRIDAY, OCTOBER 25: 8:00–11:30 AM

Both pre-conference workshops are presented by the PEER team (Patients, Experience, Evidence, Research) - a group of primary care professionals that seek to improve patient care through evidence synthesis and knowledge translation. Please note that these sessions are held prior to the conference and are not included in the general conference registration fee. Prices as listed do not include GST and will be added to your order for payment.

Excellent or Excrement: Beginner's Guide to Sorting Out Research Claims

Danielle Perry, Mike Kolber, and other PEER Team members

In this highly interactive workshop, participants will learn from PEER team members to confidently review clinical papers and understand key evidence-based medicine principles. Focusing on randomized controlled trials and systematic reviews, participants will learn how to understand meta-analyzed results as well as methods of quickly appraising articles for quality and usability. Mathematical concepts such as relative and absolute risks, and numbers needed to treat will be explained and practiced. Finally, tips for efficiently navigating the health literature will also be discussed. The overall goal of the workshop is to teach common misinterpretations in evidence, tricks to quickly sort out key findings, and make using evidence less overwhelming.

PRE-CONFERENCE WORKSHOP FEES	
Excellent or Excrement	\$350
OATrageously Rewarding Medicine	\$350

OATrageously Rewarding Medicine – Treating Opioid Use Disorder in Primary Care

Tina Korownyk, Jessica Kirkwood, and other PEER Team members

This highly interactive workshop focuses on the practical and evidence-based approach to management of opioid use disorder (OUD), through the utilization of the 2019 PEER Simplified Guideline: *Managing Opioid Use Disorder in Primary Care*. Primary care professionals will learn methods to initiate shared and informed decision-making with their patients regarding initiation of opioid agonist therapy within their practice. Additionally, psychosocial supports, tapering of therapy, and management strategies (i.e. urine drug testing and contracts) will be discussed.

These workshops have both pre- and post-conference homework to be completed.

Important Registration information

- PEIP registrations are only available online. On-site registrations will not be considered. The deadline for registration is October 18, 2019.
- In the event of a sell-out, a registration waitlist is available for those interested in attending PEIP. Individuals may also register for the live Webcast without losing their place on the waitlist and, if a conference seat becomes available, the Webcast registration fee will be applied to the full conference fee.
- Pricing (as listed) does not include GST.

Cancellation/Refund Policy

- Cancellations must be received in writing on or before October 18, 2019 and will be subject to a 20% processing fee.
- Refunds after October 18, 2019 will not be considered.
- The Alberta College of Family Physicians reserves the right to cancel or postpone a program due to insufficient registration or circumstances beyond its control.
