JOIN US

We're back for the 11th year of the Practical Evidence for Informed Practice (PEIP) conference! Join us for another year of the latest information in medicine that is focused, concise and relevant to primary care.

This event continues to be free of industry bias and aims to provide clinical bottom lines that are immediately applicable to your practice!

PEIP HYPE

"Hands down one of the best educational events I attend. Very informative, succinct, relevant and entertaining."

"This conference has changed the face of family medicine as we practice it over the past few years! By family physicians for family physicians. Love it!"

ENGAGE IN OUR LIVE WEBCAST

As virtual CPD continues to grow in popularity, the scientific planning committee is committed to ensuring our attendees experience is to calibre. Enjoy the conference from your home or with your colleagues at your clinic.
